

Graphic Designer for USAJOBS

Project Title	Graphic Designer for USAJOBS
Project Summary	Do you want to work on citizen-centered initiatives with a global reach? As a design intern with USAJOBS, you will work directly with other designers to create digital designs in support of building the Federal Career Portal brand through recruitment products and services.
Country	United States
Country/Region of Focus	United States

Project Description

USAJOBS serves as a Federal career portal that provides extensive Federal employment information to the public, coordinates recruitment information across 130 agencies, and interacts with job seekers (12M+) through the use of social media and other digital channels. You will work collaboratively with other designers for approximately 10 hours per week over the fall and spring semesters. You will create various icons and visual design elements that support social media campaigns, print designs (reports, one pagers, flyers, etc.), and photo edits (color corrections, crop, etc.). You will develop unique designs that help the program meet user needs and expectations through a human centered design approach. Projects vary depending on your strength, so please provide a link to your portfolio with your application.

Proficiency in Adobe Creative Suite (Especially Photoshop, Illustrator and InDesign) is preferred.
